

You've Been Ghosted!

Ghosting or **Boo'ing** is a new Halloween tradition *started by ghosts* that is sweeping cities and neighbourhoods across the continent.

Take this ghost and stick it on your door so all the kids in your zone can watch the ghostliness spread. Within the next 24 hours, you must ghost two other families. Make them a nifty package of treats and download and print 2 copies of these instructions plus 2 ghosts from <http://www.bunchfamily.ca/ghosting-kit>. Then, grab your kids, ring your friend's doorbell, leave your treat pack behind and **RUN AWAY!** It's even more fun if you can hide somewhere and watch them find your surprise.

Oh! The ghost has a song. You sing it to the tune of "**Black Magic Woman**" by **Santana**.

You've got a ghost on your doorstep
You've got a ghost on your doorstep
You've got a ghost on your doorstep
And this ghost was dropped off by me
You've got a ghost on your doorstep
Wait and see how much fun this ghost is gonna be!!

Don't turn your back on me, neighbour
Don't turn your back on me, neighbour
Don't turn your back on me, neighbour
Please go along with me and my tricks
Don't turn your back on me, neighbour
Cause this ghost is gonna visit two more neighbours, whoever you pick...

Download a ghost and a copy of these instructions from:
